

Western Cape Water Safety Day

The Western Province Lifesaving Club held their Water Safety Open Day at the Fish Hoek Beach on 25th February 2006. Seventy-five children from the SOS Children's Village and from the ages of 8 to 14 years were invited to participate. Edgar Mokgadi of Sports and Recreation SA was the special guest. The children were informed on water safety tips, how to prevent drowning and on lifesaving in general. Practical activities included swimming, body boards and a boat trip.
