T - 18 Days

In 18 Days time we get to welcome you all to the warm waters and sunshine of KZN

The transport solution has been confirmed!

There will be a dedicated bus service morning and evening to get you from your hotel on the main beach road to the **pool or beach**. This service will be available to all competitors and spectators.

Water Quality

KZN has had a great season as far as water quality goes.

The beaches were only affected for a few days due to rain and an extended onshore wind.

Water quality is of great importance to us all and the LOC will be keeping a close eye on conditions. We will also be running our own tests in arena areas to be sure.
